Workman® GTX Lithium

Utility vehicle

LITHIUM-ION POWER.

Hypercell® lithium-ion technology that powers the Workman GTX Lithium is built to deliver hours of reliable performance. The GTX Lithium provides a large cargo capacity, so it can handle big jobs. At nearly 181.4 kg lighter than traditional Workman GTX models, it makes a big impression on productivity without leaving a big impression on turf. The lithium-ion power packs are maintenance-free and have a long lifespan, so the machine is always ready to get to work.

FEATURES

- **Power**

An improved power-to-weight ratio provides the capacity and productivity you need to do more, every day.

- **Cargo capacity**

At 363.8 kg, the GTX Lithium-Ion provides a large cargo capacity.

- **Maintenance-free**

Lithium-ion battery packs require no maintenance, which allows you to spend less time checking batteries and more time ticking tasks off your to-do list.

- **Extended battery life**

Lithium-ion battery packs give you the power for long days and reduced charging time for short nights.

- **Onboard charger**

No need to keep track of your charger, it's onboard and ready to be connected to any standard power socket at any time, anywhere.

- **Reduced weight**

The GTX Lithium is 26% lighter than a traditional electric vehicle, and offers an additional 7.6 cm (3") of ground clearance, making it nimble while still packing plenty of all-day power.

- **Choose your power**

Option to add an additional battery for those looking for more power during the most demanding all-day jobs.
